

FELLOW USAMOMA / USAMEOS ALUMNI BMETs-USA.org

Doug Stephens, Ed Hollingsworth, Roy Place, and several other alumni have proposed the formation of a **Military-Trained Alumni Association**. The purpose of this association is to keep you in touch with your fellow classmates and friends that you meet while training and working in the AMEDD/AFMLS. Additionally, this association would provide information of interest regarding the ever-changing field of Biomedical Equipment/Clinical Engineering, our career field's training changes, and organizing and promoting social gatherings on a periodic basis.

Please take a moment to fill out this survey.

1. Would you support the development of an Association of Military trained Biomedical Equipment Technicians? YES NO
2. Would you want to be a part of any committee to help support this organization? YES NO
3. Would you support this effort by paying a minimal fee to help offset the cost of copying rosters, mailings, and phone expenses? YES NO
4. If yes, would \$3 to \$5 per year be acceptable? YES NO
5. Would you be in favor of attending a social function at areas around the nation concurrent with the Retired MSCs' annual reunion? YES NO
6. Please provide any comments that would be relevant to this endeavor. Your ideas will be discussed and considered. Thanks for your time:
